

Grooming Instructions Australian Air Force Cadets

Jewellery. Jewellery is not to be worn by members in uniform with the exception of wristwatch, medic alert bracelets and a necklace. Necklaces are to be worn underneath the innermost garment. They may be worn as long as it cannot be seen. Members, when in uniform or on duty, may wear a maximum of four rings on no more than two of the eight fingers. Such rings are to be of subdued appearance and design and of moderate size.

Body Piercing. Members are not permitted to wear any form of body piercing adornment at home training nights or on any cadet activities. The exception is for female members who may wear one matching stud or sleeper with diameter of 1cm in the lobe of each ear.

Tattoos. AAFC Members must not display tattoos.

Hair length General. The guidelines contained in this instruction on hairstyle and lengths are based on a number of important factors. Firstly, the traditional and well founded requirements for members of a military organisation to present themselves in a neat and well-groomed manner. Secondly, need for personnel to conform to the AAFC's operational, safety and hygiene requirements.

Males

Hair. Hair is to be kept neatly trimmed and in a conservative style which does not interfere with the correct wearing of Service headdress. Radical styles such as stepped haircuts and styles, which have an uncombed appearance, are not permitted styles for personnel in uniform.

The hair is to be gradually tapered to the neckline and is not to cover, touch or overhang the ears or collar. Only conservative and natural tones of artificial hair colours are permitted. The acceptability of hairstyles is to be based on neatness, cleanliness and general appearance when wearing uniform.

Sideburns. Sideburns are not to extend below the level where the ear lobe joins the head. They are to be neatly trimmed and of the same width throughout their length. Bushy sideburns are not to be grown.

Shaving. A moustache is to cover the entire top lip and is to be kept neatly trimmed. The moustache is not to extend below the upper lip. As a general rule, the face is to be shaven daily prior to reporting for duty, and in the case of cadets, as appropriate to each cadets' age and development.. However, beards and whiskers (defined as facial hair other than sideburns or moustaches) may be worn if there is a medical reason which temporarily prevents shaving. In such cases approval from a medical officer must be obtained. During the period that a member has been given approval not to shave, the resulting growth of hair is to be kept short and neatly trimmed.

Cadets are not to be forced to shave when there is clearly no need to shave i.e. before or during early stages of adolescent development
